

Ambow Education Hosts Global College and University President Symposium

BEIJING, Oct. 26, 2018 /PRNewswire/ -- Ambow Education Holding Ltd. ("Ambow" or the "Company") (NYSE American: AMBO), a leading national provider of educational and career enhancement services in China, today announced that it successfully hosted a Global College and University President Symposium at the Beijing National Stadium (the Bird's Nest) as part of the 19th China Annual Conference for International Education & Expo (CACIE) held on October 18, 2018.

Organized by the China Education Association for International Exchange, CACIE is now the most influential platform for international education exchange in China, and one of the largest annual sessions of educators overseas and throughout the nation.

Over 300 domestic and foreign participants, including college and university presidents, academic elites, education experts, government officials and business leaders attended the symposium and focused on themes surrounding five major global challenges facing many career colleges and universities: resources to develop curriculum, hiring qualified faculty, initiating a practical training program, implementing job placement services, and recruiting for international students.

"Ambow is uniquely positioned to help career colleges and universities address these five key challenges with our deep educational resources and expertise built on our growing college and corporate partnerships, as well as expanding curriculum offerings," commented Dr. Jin Huang, Ambow's President and Chief Executive Officer. "Our industry-leading experience has allowed Ambow to operate a platform tailored to the talent needs of corporations, which also provides valuable feedback for curriculum design, career-oriented practical training and job opportunities. To capture the growing demand for studying abroad, especially among Chinese students, Ambow is establishing a new cross-border college program to be deployed with more partners."

Dr. Huang added, "We were honored to have hosted this prestigious international education event and learn from the insight and opinions of many college leaders in attendance. Ambow has been playing an important role in driving the national strategy on talent upgrades by applying advanced technologies in the education space, including artificial intelligence, big data, cloud computing and the internet. We are confident that our robust resources and technologies will be adopted by an increasing number of schools and institutions looking to improve their competitiveness and influence in the industry."
