## Ambow Education Announces First Quarter 2021 Financial Results

BEIJING, June 28, 2021 /PRNewswire/ -- Ambow Education Holding Ltd. ("Ambow" or the "Company") (NYSE American: AMBO), a leading national provider of educational and career enhancement services in China, today announced its unaudited financial and operating results for the three-month period ended March 31, 2021.

"We are pleased to start 2021 with better-than-expected first quarter results, highlighted by a 43.5% year-over-year increase in total revenues, thanks to the strong execution of our overall strategy which focuses on operational improvements," said Dr. Jin Huang, Ambow's President and Chief Executive Officer. "Specifically, we further revived solid gross margin expansion for both of our CP&CE Programs and K-12 Schools segments during the quarter, lifting it even higher than the same period in 2019. As a prominent education brand in China, we remain committed to delivering in-demand and high-quality educational services for our learners in their pursuit of academic and professional excellence."

"Supported by our industry-leading intelligent education products, we endeavor to provide superior online talent training to address various career enhancement needs. For example, we cooperated with Kylinsoft to provide a suite of education services across a series of Kylinsoft operating system products, spanning training courses, certification programs, internship placement, employment services and industrial colleges. We also formed a strategic cooperation with Adobe Authorized Training Centre to provide international certification services for Chinese students. Meanwhile, we further integrated advanced technology into our educational services to increase our competitiveness. We launched a blockchain-based career-oriented education skills recognition system to redefine educational accreditation for professional talents. Looking ahead, we will remain focused on harnessing our technological capabilities to offer a broader range of education services in China and U.S., while enhancing operating efficiency. We believe these efforts, coupled with our 20-year proven track record in the education sector, will help us grow our overall business while delivering long-term value to our shareholders," concluded Dr. Huang.
