### Second Quarter 2022 Financial Highlights

- Net revenues for the second quarter of 2022 decreased by 36.2% to RMB 109.9 million (US\$ 16.4 million) from RMB 172.3 million for the same period of 2021. The decrease was primarily due to the planned sale of the K-9 business, which is expected to be completed by December 31, 2022. The profit or loss of the K-9 business since September 2021 was borne by and entitled to the buyer as agreed. The decrease was also partially due to the regulatory changes inChina affecting the tutoring business since August 2021.
- Gross profit for the second quarter of 2022 decreased by 40.6% to RMB 45.1 million (US\$ 6.7 million) from RMB 75.9 million for the same period of 2021. Gross profit margin was 41.0%, compared with 44.1% for the second quarter of 2021. The decreases in gross profit and gross margin were mainly attributable to the immediate impact of regulatory changes on net revenues of the tutoring business, while there was less impact on costs during the period.
- Operating expenses for the second quarter of 2022 increased by 20.5% to RMB 67.0 million (US\$ 10.0 million) from RMB 55.6 million for the same period of 2021. The increase was primarily caused by a write-off of long-term receivables due from Jinghan Taihe of RMB 13.7 million and a share-based compensation expense of RMB 6.7 million and partially offset by the decrease in operating expenses due to stringent expense control in the period.
- Operating loss for the second quarter of 2022 was RMB 21.9 million (US\$ 3.3 million), compared to operating income of RMB 20.3 million for the same period of 2021.
- Net loss attributable to ordinary shareholders for the second quarter of 2022 was RMB 71.4 million (US\$ 10.7 million), or RMB 1.53 (US\$ 0.23) per basic and diluted share, compared with a net income of RMB 22.4 million, or RMB 0.48 per basic and diluted share, for the same period of 2021. Other than the operating loss, the net loss was also caused by the income tax expense of RMB 39.0 million from the gain on waived inter-group payables and RMB 9.0 million from the valuation allowance for the deferred tax assets resulting from the write-off of the long-term receivables due from Jinghan Taihe.
- As of June 30, 2022, Ambow maintained strong cash resources of RMB 142.6 million (US\$ 21.2 million), comprised of cash and cash equivalents of RMB 61.8 million (US\$ 9.2 million), short-term investments of RMB 78.5 million (US\$ 11.7 million) and restricted cash of RMB 2.3 million (US\$ 0.3 million).

#### First Six Months 2022 Financial Highlights

- Net revenues for the first six months of 2022 decreased by 32.4% to RMB 204.0 million (US\$ 30.5 million) from RMB 301.9 million for the same period of 2021. The decrease was primarily due to the planned sale of the K-9 business, which is expected to be completed by December 31, 2022. The profit or loss of the K-9 business since September 2021 was borne by and entitled to the buyer as agreed. The decrease was also partially due to the regulatory changes inChina affecting the tutoring business since August 2021.
- Gross profit for the first six months of 2022 decreased by 36.8% to RMB 76.2 million (US\$ 11.4 million) from RMB 120.6 million for the same period of 2021. Gross profit margin was 37.3%, compared with 39.9% for the same period of 2021. The decreases in gross profit and gross margin were mainly attributable to the immediate impact of regulatory changes on net revenues of the tutoring business, while there was less impact on costs during the period.
- Operating expenses for the first six months of 2022 decreased by 1.3% to RMB 113.9 million (US\$ 17.0 million) from RMB 115.4 million for the same period of 2021. The decrease was attributable to stringent expense controls, offset by a write-off of long-term receivables due from Jinghan Taihe of RMB 13.7 million and a share-based compensation expense of RMB 6.7 million.
- Operating loss for the first six months of 2022 was RMB 37.7 million (US\$ 5.6 million), compared to operating income of RMB 5.2 million for the same period of 2021.
- Net loss attributable to ordinary shareholders for the first six months of 2022 was RMB 89.0 million (US\$ 13.3 million), or RMB 1.90 (US\$ 0.28) per basic and diluted share, compared with a net income of RMB 8.1 million, or RMB 0.17 per basic and diluted share, for the same period of 2021. Other than the operating loss, the net loss was also caused by the income tax expense of RMB 39.0 million from the gain on waived inter-group payables and RMB 9.0 million from the valuation allowance for the deferred tax assets resulting from the write-off of the long-term receivables due from Jinghan Taihe.
